**WARRANTY 5yr WARRANTY**

Pacsafe® stands behind its materials and workmanship unconditionally by providing a 5 year warranty from the date of purchase on all Pacsafe® products, protecting them against malfunction or defect. Refer to pacsafe.com for details.

# CONTENTS

**Pacsafe® Turtle Commitment**

We haven't forgotten our roots. Initially inspired by the turtle and its independent global wanderings, we believe in sustainability and doing everything we can to work with local communities at a grass-roots level to ensure that the sea turtle doesn't become the next Dodo. By outsmarting the threats they face, we'll help protect their natural habitats, focus on breeding programmes and raise awareness.

# The Pacsafe® Original

## anti-theft backpack & bag protector

**outsmart thieves, bag snatchers & bag slashers**

**anti-theft features:**

Smart eXomesh® cage system, locks closed and locks to fixture.

# Smart travel gear

*We are the best mates for the Global Traveler with our innovative design and unrivalled anti-theft technology. We offer functional travel gear you can rely on. We have your back and inspire people to travel more and have fun.*

Let's face it, nobody likes getting ripped off. We hate it and it's not just 'part of the experience'. Having your gear stolen when travelling affects your personal security. Ever been stuck in a foreign country without any money or a passport? We have and trust us, fun isn't a word that springs to mind. That's why we're dedicated to creating smart new ways to keep your gear secure.

Think you're safe in a busy café in Rome? Think again. Opportunistic thieves are everywhere and aren't just hiding around Las Ramblas, Barcelona or on the trains of Southern India. So keeping an eye on your stuff, or simply being extra alert and cautious just isn't enough. After all, why should you have to spend your holiday and adventure worrying about your gear? Travel should be about freedom. About feeling safe out on the road less travelled.

The truth is, we're independent souls at heart. It's that sense of freedom that courses through our veins and it's the itch we feel, when we're chained to a desk too long. That's why we're founded on travel and escape whenever we can. This is and never will be a job to us, it's our passion. It's in our blood. Yet wherever we go in the world, we listen and we learn from you. Real travellers, with real stories and very real experiences.

Hey, it's no coincidence our logo's a turtle. It's what inspired us to begin with. With his protective armour he can wander the globe safe and sound. No inhibitions and no holding back. Like him, when your gear's secure, you can do more.

**Rob Schlipper**
*CEO*

**Magnus McGlashan**
*Managing Director*

At the heart of every innovative Pacsafe® product is one clear purpose. To watch your back while you travel, so you can focus on having fun and doing more. We help keep you one step ahead of the game by keeping your gear secure from opportunistic thieves including:

- Pickpockets
- Gear thieves
- Strap slashers
- Bag slashers
- Bag snatchers
- Identity thieves

# smart anti-theft technology

We have developed a wide range of innovative, functional devices, methods and unique systems that put you in control. Designed for travellers, by travellers. Engineered and tested to stand up to the rigors of real adventure travel, and yet simple enough for everyday use.

Over the years, we've continued to push our technology and invented a range of smart anti-theft devices that create additional barriers for thieves. The technology is designed to be lightweight, discreet and easy to use for you, yet difficult for an opportunistic thief to overcome.

## 360º eXomesh® locking system

Our patented, flexible, stainless steel wire mesh comes in two forms - It can either be thrown externally over backpacks and bags, or it's laminated between the fabric to form a stealth-like portable safe. Both can be locked closed to form a 360° slashproof protective cell which locks to a secure fixture.

## eXomesh® slashguard

Bag slashers often like to target outside fabric panels of bags (front, bottom or side), which cause valuables to fall out and into the palm of their hands. Our lightweight slashguard are built into (and concealed) in the most commonly vulnerable areas of bag, protecting your gear from a quick slash-and-run theft. Our new eXomesh® protection in our luggage extends the full length of the bag protecting your gear from opportunistic theft or if it's snagged by a conveyor belt or luggage handlers.

## Roobar™ anti-theft anchor lock

Prevent pickpockets and bag snatchers by locking down zippers, slashguard anchor straps, locking cables and /or attach your bag to a secure fixture with the new Roobar™ anti-theft anchor lock. The Roobar™ also allows multiple compartments to be locked together with a single padlock (Intasafe™ Collection, Toursafe™ EXP, Venturesafe™ 45L, 55L and 65L).

## Stainless steel locking cable

Lightweight, stainless steel locking cables lets you lock your bag to a secure fixture to prevent thieves from running off with your bag.

## Carrysafe® slashguard straps

Flexible, lightweight, stainless steel wire is integrated into our adjustable Carrysafe® straps making it invisible to the eye, yet very effective at preventing bag slashers from slicing through and running off with your gear.

## RFIDsafe™ blocking pockets & material

Most passports, credit cards and ID cards now contain a RFID micro-chip. This chip contains all your personal, sensitive information. Identity thieves are able to access this information from up to 10ft away with the help of an RFID reader. Our award-winning RFIDsafe™ blocking material prevents your data from falling into the wrong hands by blocking out virtually all transmissions between 10 MHz - 3 GHz, which covers the radio frequency used in e-passports, credit cards / smart cards, and key cards.

## Puncture resistant ToughZip™

Our puncture resistant ToughZip™ helps prevent pickpocket pilfering and forced entry into all our new Toursafe™ luggage and Venturesafe™ travel pack collections with a ballpoint pen or similar sharp object. It even helps to prevent unwanted items (such as contraband) being unknowingly put inside your luggage.

## Slashguard anchor strap

The slashguard anchor strap is fixed to bag and tucked away in its own special pocket. When pulled out and engaged it can be used to attach to a secure fixture. Don't worry it's reinforced with stainless steel wire so that it can't be easily cut by a thief.

## Interlocking zip pullers

New interlocking zip pullers ingeniously slide on top of one another and interconnect making it making it harder for pickpockets to unzip your bag and whip out your valuables. When engaged with the Roobar® even the most seasoned thieves will be left scratching their heads on how to unlock your bag.

## Turn & lock security hooks

These small smart devices pack a whole lot of intelligence. The hook unfastens so that you can attach your bag to a secure fixture. What's more, the smart hook has a special turning mechanism which actually locks the hook in to place making it harder for a bag snatcher to make an easy getaway.

## Smart zipper security

Zipper pullers can be attached to discreet security hooks or placed under and through a hypalon tab to prevent pickpockets reaching into your bag.

## Dual release security buckles

This smart buckle has a dual release button in order to open and close it. This new opening method confuses the unsuspecting thief who won't waste time trying to unfasten it. It also allows you to attach your bag to a secure fixture, be it the leg of a table or around a palm at a beach adding a further deterrent to opportunistic thieves.

eXomesh®

# Adventure Travel

As you trek Bhutan, swim with sharks in Cape Town, scale the karst limestone cliffs of Yangshuo or get some shut eye on a train down to Southern India, the last thing you need, or want, is to be worried about your gear. Our adventure travel gear is designed and engineered to keep your valuables safe from the prying hands of pickpockets, and the "blink and you'll miss 'em" bag snatchers and slashers. Get your adrenaline pumping the right way and not from the anger and frustration that comes from losing your passport, camera or money.

Take a load off while you flashpack or cruise through the mysterious Golden Triangle or discover the hidden wonders of Africa with the new **Toursafe™ AT** luggage series. The puncture resistant ToughZip™ protects your luggage against pilfering and forced entry by a ballpoint pen, while eXomesh® protection deters against opportunistic thefts and prevents valuables falling out if your luggage is damaged in transit. The soft-sided, semi-collapsible, secure luggage series comes in a variety of lightweight sizes making it the perfect companion for those seeking peace of mind on their next adventure.

## toursafe™ *AT* key features:

**Outsmart pickpockets with
puncture resistant ToughZip™**

*outsmart thieves™*

Our puncture resistant ToughZip™ helps prevent pickpocket pilfering and forced entry into all our new Toursafe™ luggage and Venturesafe™ travel pack collections with a ballpoint pen or similar sharp object. It even helps to prevent unwanted items (such as contraband) being unknowingly put inside your luggage.

# PICKPOCKET HOTSPOTS*

Pickpockets can strike anywhere at any time. Be prepared and stay alert especially when visiting these cities.

1. Barcelona, Spain
2. Rome, Italy
3. Prague, Czech Republic
4. Madrid, Spain
5. Paris, France
6. Florence, Italy
7. Buenos Aires, Argentina
8. Amsterdam, Netherlands
9. Athens, Greece
10. London, England

*As per Tripadvisor's travellers and editor list, 2010

Get lost and discover the unfamiliar with the new **Toursafe™ EXP** luggage series. Whether you're headed to untapped Burma or exploring the exotic tropics of Malaysia, this new series meets all your rugged needs and more. Each of our wheeled gear bags has been designed with your adventure in mind, from high performance tread wheels, reinforced handles, bumpers and kick plate to security such as, interlocking zipper pullers, slashguard and the new innovative Roobar™ which allows you to lock your case to a secure fixture - just think, no sleeping with 1 eye open on India's notorious sleeper trains or playing tag team night watchman with your travel companion. With the **Toursafe™ EXP** collection, your senses focus on the exciting journey that lays ahead, not your gear.

## toursafe™ *EXP* key features:

**Roobar™ anti-theft anchor lock and interlocking zip pullers**

Got your Eurail pass in hand and ready to hop, skip and jump around Europe? Are you tempted by the mysterious allure of the East and plan on losing yourself in the tropics? Or perhaps it's the call of Africa that beckons you and their eco-tourism initiatives? Whatever your plan maybe, the new Pacsafe **Venturesafe™ Travel Pack** series was developed to take a load off your mind, while the lightweight features help lighten the load on your back. Not only do you get everything you'd come to expect from a reliable travel backpack - ergonomic design and an easy to adjust suspension system, large spacious compartments with internal organisation, durable material with extra attachment points – but you also get all the security features you've come to expect from Pacsafe. That's right, our travel backpacks come with puncture resistant ToughZip™ technology, built-in lightweight eXomesh® slashguard as well as a locking cable that allows you to secure your backpack to a fixture and lock it down with the new Roobar™ anti-theft anchor lock.

**Outsmart thieves & bag snatchers with**
# turn & lock security hooks

**outsmart thieves**

These small smart devices pack a whole lot of intelligence. The hook unfastens so that you can attach your bag to a secure fixture. What's more, the smart hook has a special turning mechanism which actually locks the hook into place making it harder for a bag snatcher to make an easy getaway.

The **Camsafe® Venture** series has been designed for the photography enthusiast, traveller and semi-pro photographer in mind. Each one has been created to ensure you don't look like a tourist (its a camera bag that doesn't look like a camera bag!) The fresh design and durable fabrics stand up to rugged adventure trips and off the beaten track holidays, while innovative anti-theft features including an RFIDsafe™ blocking pocket work hard to outsmart those looking to steal your gear and memories.

## camsafe® *V2* camera holster #15100 `new item`

**Outsmart thieves & bag snatchers with**

# dual release security buckle

This smart buckle has a dual release button in order to open and close it. This new opening method confuses the unsuspecting thief who won't waste time trying to unfasten it. It also allows you to attach your bag to a secure fixture, be it the leg of a table or around a palm at a beach adding a further deterrent to opportunistic thieves.

*outsmart thieves™*

# camsafe® *V11* camera front pack #15180 `new item`

**Outsmart bag snatchers & slashers with our**

# 360° eXomesh® locking system

**outsmart thieves**

Our patented, flexible, stainless steel wire mesh comes in two forms - it can either be thrown externally over backpacks and bags, or it's laminated between the fabric to form a stealth-like portable safe. Both can be locked closed to form a 360° slashproof protective cell which locks to a secure fixture.

# Urban Travel

As we take on the concrete jungle, we're constantly on the move and connected. From the daily commute and power lunches with colleagues, to dinner & drinks on the town and business trips away, there's no escaping the expensive gadgets and sensitive, personal and corporate information we carry on us everyday. Yet, for all the bright lights and buzz of the city, there's also an unfortunate underbelly of opportunistic thieves who are more than happy to help themselves to your gear. With that in mind, each of our Urban bags, briefs and packs are designed to not only be your essential daily companion, they're also designed to protect your assets from shady characters looking to lighten your load and your bank account.

The new **Intasafe™** series is the quintessential travel bag about town. Designed for the modern, mobile and connected traveller it will help you navigate your way through the concrete jungle and beyond. The **Intasafe™** is slick, rugged and comes equipped with lux, quilted, padded, internal organisation to keep everything you need, exactly where you need it. Built-in anti-theft features such as the new Roobar™ anti-theft anchor lock allows you to lock your gear to a secure fixture, the RFIDsafe™ pocket protects personal information on your bank and credit cards and eXomesh® slashguard discreetly work to protect your must-have, state-of-the-art electronics from potential street smart city bag slashers.

For the young, street smart, upwardly mobile urbanite who wants to be seen but not seen to be trying. Searching to make his mark in an overcomplicated world he finds reassurance in going back to his roots. Simple understated styling injected with a dose of laissez faire edginess. The **Z-series™** answers his call with a tough outer canvas fabric that masks an even tougher, slashproof eXomesh® cage system. The patented mesh weave imprint and retro old school touchpoints call back to Pacsafe's unique heritage.

# 360˚ eXomesh® locking system

Our patented, flexible, stainless steel wire mesh comes in two forms - it can either be thrown externally over backpacks and bags, or it's laminated between the fabric to form a stealth-like portable safe. Both can be locked closed to form a 360° slashproof protective cell which locks to a secure fixture.

outsmart thieves

The **Ultimatesafe™** is the "Fort Knox" of backpacks and highlights the premium of our patented, innovative anti-theft security features. Its camouflaged cage is so smart that thieves and slashers won't even see the high-tensile stainless steel running through your backpack. The best thing about the Ultimatesafe™ is it contains a portable safe. So slip it out your backpack, lock up those valuables and anchor it to any secure fixture you can think of. The only thing you need to worry about is remembering where you left it.

# Leisure Travel

Whether you're tired of the everyday routine, sick of being chained to that desk, have an itch to feel the sun on your face, or just want to take time out to see the family, everyone needs a break once in awhile. After all, it's that time out that we all need to relax, recharge and rejuvenate that keeps life fresh, gives us a boost and puts that spring back into our step.  So if you're sipping Pina Coladas on the beach, sauntering down the Champs-Élysées, touring Bangkok's Grand Palace, cruising around the Caribbean or simply heading back home for some much needed TLC, let Pacsafe's leisure gear take some of that stress out of the journey by looking after your valuables while you look after what's important – you.

Whether you're escaping from the everyday, taking off to rejuvenate and recharge, or looking to spend time with the family and reconnect, the new **Toursafe™ LS** collection is your reliable, trustworthy travel partner. From the weekender bag right up to the 29" wheeled upright, each classic, understated piece in the LS series is designed to meet your travel needs and protect your valuables from luggage pilferers, bag snatchers and luggage slashers.

**Outsmart thieves & luggage pilferers with our**

# puncture resistant ToughZip™

*outsmart thieves™*

Our puncture resistant ToughZip™ helps prevent pickpocket pilfering and forced entry into all our new Toursafe™ luggage and Venturesafe™ travel pack collections with a ballpoint pen or similar sharp object. It even helps to prevent unwanted items (such as contraband) being unknowingly put inside your luggage.

The **Metrosafe™ GII** series is an undisputed classic. This line brings together contemporary hardware and colours with clean, structured lines, sturdy material and built-in anti-theft technology including an innovative RFIDsafe™ blocking pocket for protection against identity thieves. It comes as no surprise really, that urbanites can't get enough of the **Metrosafe™ GII** and seasoned travellers love it.

The **Stashsafe™ GII** series features handy RFIDsafe™ blocking hip pack that smartly stashes away your bare essentials and keeps them safe from nimble-fingered pickpockets, identity thieves and quick-on-their-feet bag snatchers. The thoughtfully included padlock and smart zipper security means you don't need to keep it strapped around you 24-7, you can lock it round a secure fixture, like the leg of a chair in a Parisian cafe.

Outsmart thieves & bag slashers with
# eXomesh® slashguard

outsmart thieves

Bag slashers often like to target outside fabric panels of bags (front, bottom or side), which cause valuables to fall out and into the palm of their hands. Our lightweight slashguard are built into (and concealed) in the most commonly vulnerable areas of bag, protecting your gear from a quick slash-and-run theft. Our new eXomesh® protection in our luggage extends the full length of the bag protecting your gear from opportunistic theft or if it's snagged by a conveyor belt or luggage handlers.

# Travel Accessories

Ask any seasoned traveller and they'll tell you the secret to successful travel is all in the accessories they take. Not just considered 'extra items', travel accessories are essential for making a holiday, long adventure, short getaway, business trip or escape, as easy and as stress-free as possible. They keep the bare necessities like your passport, tickets and cards organised, in-check and easy to find. Our Travel Accessories go one step further to make sure that those necessities are also safe, secure and exactly where they should be.
The **Pacsafe**® series was the original and our first. Like any first, it stays with you. Its smart patented 360° eXomesh® locking system is an adjustable high-tensile stainless steel device that locks closed and locks to a secure fixture. Throw it on a variety of backpacks, soft-sided wheeled luggage or a duffel bag then lock it and leave it while you head out to meet the adventures that lay in wait.

**pacsafe® *55L* backpack & bag protector** #10170
**pacsafe® *85L* backpack & bag protector** #10180
**pacsafe® *120L* backpack & bag protector** #10190

**A padlock and carry pouch are included in all the above products.**

**smart tip:** If your sleeping bag or tent is secured to the outside of your pack, add approximately 1000 in$^3$ / 16 L for each item to the total pack volume.

Patented in: Australia 695896; Europe (EPO), Ireland, Netherlands and UK EP0878143; Germany DE69803812.6 / EP878143; USA 6026662 & 6244081.

**EDITORS' CHOICE 1999 BACKPACKER**

Outsmart thieves, bag snatchers & bag slashers with our
# unique locking device

The metal reinforced locking device made from high-impact resistant polycarbonate (that's the same laminate stuff used in bullet-proof glass), ensures your bag's a deterrent not a target.

**outsmart thieves**

While you're out and about exploring, the new **Travelsafe**® series' portable safes will protect and look out for your valuables. Each easy-to-use safe securely stores and locks down items, from your ipod, jewellery and passport, to your camera, laptop and blackberry. With its patented 360° eXomesh® locking system, you'll be able to lock it closed and to a secure fixture in your hotel room, by the pool, in a car or in-flight. And when you're not using it, it even conveniently folds down to fit into your luggage.

# Stop identity theft

With 11 million people* affected by identity theft every year and with the new electronic RFID chips installed in your credit cards and passports, identity theft is unfortunately set to rise.

**What is RFID identity theft?**
RFID micro chips can be found in your passport, credit cards, bank cards and ID cards. Each chip emits radio transmissions which can be read and downloaded by thieves without you knowing by using a hand-held RFID-reader from up to 10 ft away. Reduce your risk of identity theft with our award-winning RFIDsafe™ passport and credit card protector.

**How do I know if I'm at risk?**
Your passport or bank and credit cards will have one of these symbols on them.

**How do thieves steal my information without me knowing?**
Easily bought hand-held RFID readers can be bought online. The portable, small devices taps in radio transmissions coming from your bank card or passport and uploads the information from up to 10 ft away.

**What information can identity thieves access?**

Pawi Pacsafe

**How it works:**
Pacsafe's RFID-blocking wallets and accessories use a special award-winning RFID-blocking material. The unique material blocks transmissions and stops RFID readers from gaining access to your personal information and data including the frequency 13.56 MHz, which is typically used in e-passports, credit cards / smart cards, and key cards.

The **RFID-tec™** series is fresh, fun and perfect for travels. Whether you're a sport enthusiast, young-at-heart or just looking for your next adventure, you can head out and beyond with this light weight, trendy RFID-blocking accessory line. Based on our award-winning RFID-blocking material; you can throw 'em in your backpack and relax knowing your personal information is kept just that, personal.

# RFIDsafe™ blocking pockets & material

**RFID SAFE** Most passports, credit cards and ID cards now contain a RFID micro-chip. This chip contains all your personal, sensitive information. Identity thieves are able to access this information from up to 10ft away with the help of an RFID reader. Our award-winning RFIDsafe™ blocking material prevents your data from falling into the wrong hands by blocking out virtually all transmissions between 10 MHz - 3 GHz, which covers the radio frequency used in e-passports, credit cards / smart cards, and key cards.

### 7 Tips for a Cheap Trip to Italy

July 1, 2013 · 0 comments

So you are heading off to Italy- one of the most beautiful countries in the world, with picturesque countryside, unparalleled architecture and art, not to mention the food! But alas, it is also one of the most visited and unfortunately, things can get a little bit pricey. Get off the [...]

Outsmart thieves

Outsmart identity thieves with

# RFIDsafe™ blocking pockets & material

**RFID SAFE** Most passports, credit cards and ID cards now contain a RFID micro-chip. This chip contains all your personal, sensitive information. Identity thieves are able to access this information from up to 10ft away with the help of an RFID reader. Our award-winning RFIDsafe™ blocking material prevents your data from falling into the wrong hands by blocking out virtually all transmissions between 10 MHz - 3 GHz, which covers the radio frequency used in e-passports, credit cards / smart cards, and key cards.

Patented in: Australia 695896; Europe (EPO), Ireland, Netherlands and UK EP0878143; Germany DE69803812.6 / EP878143; USA 6026662 & 6244081.

**TRAVEL SENTRY® APPROVED**

With increased security at airports, there are times when Transport Security Administration (TSA) agents need to check your bags before they join you on the plane. Unbeknownst to you, your bag will be opened and the lock protecting your gear can be broken rendering it useless when you arrive at your destination. Thankfully, our Travel Sentry® approved locks mean TSA (US) agents and HRSC (UK) officers can open and relock your bag using codes and secured tools.
